

# JOSH MOODY

CINEMATOGRAPHER

BA in History & Film Studies - Vanderbilt University - Class of 2011

"Josh is a double threat cinematographer. He always shoots to integrate, serve, interest, and enhance the story." - *Chris Blake, Director*

"Another thing that pulled me into *[Strategy & Pursuit]* was how beautifully shot it was. Each scene was lit extremely well and...each shot said something about the characters subjectively in one way or another. The camera somehow manages to...help draw us, the audience, more into what is unfolding before us." - *UFA News Review*

"*[All Light Will End]* is a beautifully executed film. The cinematography is incredible... The visuals are razor sharp, and the composition makes sense for every shot." - *Brian Napier, HorrorHound Magazine*
